

On your arrival at the Ski Village, you will want to have a Turbocharger installed on your vehicle which will be good for the remainder of your journey to the Mine and then back to Last Chance Gulch. Give this coupon to your Master Trader upon reaching the Ski Village.

A Turbocharger superpowers your engine with no additional use of fuel. This will allow your team to travel 2 blocks per day in either direction on a single Fuel card. Because of possible environmental impacts, turbocharged vehicles are never allowed on the Low Country Trail but can be used on the Plateau and High Country trails.

Plan for enough fuel and supplies to stay in the Mine and return to The Gulch. You can leave the Mine as late as Day 17 to return to Last Chanch Gulch by Day 20.

Note: Your team can go to the Cache from the Mine in ONE day - You may find that other teams may buy your services if they need to exchange resources. You can charge them Gold to do this!
